

To members of the Public Health Committee:

I am writing to offer testimony in support of 5327, An Act Concerning Health Freedom and the Practice of Classical Homeopathy.

Over many years I have benefited from homeopathic treatment, which in Connecticut is available only through Naturopaths. There are many qualified practitioners in Connecticut who are being constrained from practice. I urge the passage of this bill to allow Homeopaths who have achieved the highest level of homeopathic education and training through national certification to be recognized. To acquire the necessary hours of supervision, those who are otherwise qualified, must travel to an adjoining state, where Homeopaths are certified. Homeopaths often form a productive practice team with other health providers. This is not now possible in Connecticut.

Again, I urge your support and passage of this bill.
